DETAILED ACTION

The following is noted:

Claims 1-4, 9 and 12 recite a pharmaceutical compound comprising "an anesthetic." The specification discloses a list of possible anesthetics for use in the compounds of the aforementioned claims.

- Election of a single disclosed species of anesthetic is required.

Species Election

1. Applicant is required under 35 U.S.C. 121 (1) to elect a single disclosed species to which claims would be restricted if no generic claim is finally held to be allowable and (2) to list all claims readable thereon including those subsequently added.

Applicant is required to elect a single disclosed anesthetic species as recited in the specification on page 16. The species are Ambucaine, Amolanone, Amylocaine Hydrochloride, Benoxinate, Benzocaine, Betoxycaine, Biphenamine, Bupivacaine, Butacaine, Butamben, Butanilcaine, Butethamine, Butoxycaine, Carticaine, Chloroprocaine Hydrochloride, Cocaethylene, Cocaine, Cyclomethycaine, Dibucaine Hydrochloride, Dimethisoquin, Dimethocaine, Dipiperodon Hydrochloride, Dyclonine, Ecgonidine, Ecgonine, Ethyl Chloride, Etidocaine, .beta.-Eucaine, Euprocine, Fenalcomine, Fomocaine, Hexylcaine Hydrochloride, Hydroxytetracaine, Isobutyl p-Aminobenzoate, Leucinocaine Mesylate, Levoadrol, Lidocaine, Mepivacaine, Meprylcaine, Metabutoxycaine, Methyl Chloride, Myrtecaine, Naepaine, Octacaine, Orthocaine, Oxethazaine, Parethoxycaine, Phenacaine Hydrochloride, Phenol, Piperocaine, Piridocaine, Polidocanol, Plidocanol, Pramoxine, Prilocaine, Procaine, Propanocaine, Proparacaine, Propipocaine, Propoxycaine Hydrochloride, Pseudococaine, Pyrrocaine, Ropivacaine, Salicyl Alcohol, Tetracaine Hydrochloride, Tolycaine, Trimecaine, and Zolamine.

Art Unit: 1644

These species are distinct because the anesthetics have different structures, functions and modes of action. Therefore, each represents a patentably distinct species.

Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

2. Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. § 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. M.P.E.P. § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103 of the other invention.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nora M. Rooney whose telephone number is (571) 272-
